

With a solid Canada-wide presence, Altus Group is strengthening its core team to meet the demand for unparalleled expertise.

We are now accepting applications for **MUNICIPAL ENGINEER / PROJECT MANAGER**

WHAT WE OFFER CLIENTS

With over 320 employees in 14 offices across Canada, Altus Group's Geomatics Division provides integrated Field Surveys, Mapping, Remote Sensing (LiDAR/3D Laser Scanning), Land Use Planning, Environmental Consulting and GIS (Data Solutions and Systems) services to the energy, forestry and construction industries in Western Canada. We value achieving a level of service that anticipates, understands and exceeds our clients' expectations.

WHAT WE OFFER EMPLOYEES

Joining our collaborative team means working with the industry's best. We are proud of our company culture where the emphasis is on supporting each other in a passionate, team environment, keeping us a measure above. Our commitment to job safety is unparalleled. Our excellent compensation package includes an industry competitive benefits package. We encourage promotion from within our organization and offer professional development support to grow your skill set and advance your career with Altus Group.

WHAT YOU'LL DO

As a **Municipal Engineer** in our **Regina, Saskatoon or Winnipeg** office, in a **Safety Sensitive Position*** and collaborative member on our Management Team, you will play an integral role in our growing operation.

WE'LL MEASURE SUCCESS BY HOW YOU:

- Manage and complete municipal engineering projects from proposal stage to completion
- Build and nurture client relationships to identify and develop opportunities with our clients
- Utilize internal relationships to engage further technical expertise in developing custom client solutions
- Assure high quality deliverables go out to clients
- Manage the financial aspects of projects which includes work in progress, invoice recovery, and cost control
- Demonstrate an understanding of all regulatory and technical requirements for your projects

WHAT YOU'RE SKILLED AT:

- Ability to work in a fast paced environment with a strong work ethic
- Collaborative attitude, ability to excel in a team and independent environment
- Commitment to customer satisfaction through problem solving
- Excellent communication (verbal and written), interpersonal, conflict resolution and negotiation skills
- Goal orientation with a drive to exceed expectations
- Superior attention to detail to produce professional deliverables
- Ability to manage time and priorities effectively, results oriented

WHAT YOU'VE DONE

- Bachelor's degree in civil engineering from a recognized post-secondary institution
- Minimum of 5 years' experience managing municipal engineering projects in North America
- Registered or eligible to register as a professional engineer in Saskatchewan and Manitoba
- Proficient in Microsoft Office and AutoDesk software packages
- Previous experience in detailed engineering design including site grading, sanitary sewer, waterline, storm ponds, concrete infrastructure and roadways.
- Previous experience in construction services including project management, scheduling, inspection, progress reporting and contract management.
- Hold a Class 5 driver's license (driver's abstract required)

Closing Date: **February 1, 2019 or until a suitable candidate is found.** Please include a cover letter with your resume. You must be eligible to work in Canada. Only those selected for an interview will be contacted. Thank you to all applicants in advance.

Please email applications to Travis Wolfe at geomaticsemployment@altusgroup.com
